

Cookie Policy from chest-er.com

Cookies are a piece of data sent from a website and stored in your browser's memory. Cookies can be required to allow

a website to function properly as websites are stateless (they don't remember user information from one internal page

to another) but sometimes they are used to track user actions within one web or across multiple webs in order to collect

usage information or identify interests and map behavior to be able to offer relevant advertisements.

When websites use the Acconsento.click platform they offer you the choice to allow or deny certain Cookie categories

which helps protect your privacy. Below is a description on the most common Cookie categories.

Necessary Cookies

Necessary Cookies are used to make a website function properly, they are generally not used for tracking and are not

shared between webs. The most common necessary action performed using a Cookie is user authentication.

When you log

in to any website, a cookie is stored in your browser including some piece of data used by the web to remember who is

authenticated when you go to another internal page or refresh the site. Cookies are also used so that a web knows what's in

your shopping cart, load balancing information and more.

Preference Cookies

Preference Cookies enables the website to remember information to customize how the website looks or behaves for

each user. This may include storing selected currency, region, language or color theme.

Analytical Cookies

Analytical Cookies are not necessary but are used to collect valuable information on how a website is being used, identify

issues and figure out what needs to be improved on the site and what content is useful. The information collected is in

most cases anonymous, but some analytics services collect information that can be used to identify the user.

Marketing Cookies

Marketing Cookies are used to track visitors across websites to allow publishers to display relevant and engaging

advertisements.

This website uses different types of Cookies and, in any time, is possible to change or revoke user's consent :
