Cookie Policy from benedettisnc.com

Cookies are a piece of data sent from a website and stored in your browser's memory. Cookies may be required to enable a website to function properly as websites are stateless (do not remember user information from one page to another) but are sometimes used to track user actions within a website or across multiple websites in order to gather usage information or identify interests and map behavior to deliver relevant advertisements. When websites use the Acconsento.click consent management platform, they offer you the ability to allow or deny certain categories of cookies that help protect your privacy. Below is a description of the most common cookie categories.

Necessary cookies

Necessary cookies are used to make a website work properly, generally not used for tracking and not shared across websites. The most common action performed using a cookie is user authentication. When you access any website, a cookie is stored in your browser that includes some data used by the web to remember who is authenticated when you go to another internal page or refresh the site. Cookies are also used so that a website knows what's in your cart, load balancing information, and more.

Preferences cookies

Preference cookies allow the website to remember information to personalize the appearance or behavior of the website for each user. This may include storing selected currency, region, language, or color theme.

Analytical cookies

Analytical cookies are not necessary but are used to gather valuable information on how a website is used, identify issues, and understand what needs improvement on the site and what content is helpful. The collected information is mostly anonymous, but some analytics services collect information that can be used to identify the user.

Marketing cookies

Marketing cookies are used to track visitors across websites to enable publishers to display relevant and engaging advertisements. This site uses various types of cookies and you can change or withdraw your consent at any time.

The law states that we can store cookies on your device if they are strictly necessary for the operation of this website. For all other types of cookies we need your explicit consent. This means that cookies classified as necessary are processed under Article 6(1)(f) "Lawfulness of processing" of the GDPR. All other cookies, namely those belonging to preference and marketing categories, will only be activated upon your explicit consent.

This site uses different types of cookies. Some cookies may be related to third-party services that appear on our pages.

You can change or withdraw your consent at any time through the Cookie Management > Cookie Manager section, available within the privacy control center always accessible during browsing via the "privacy lock".

Within the control center, you can also get more information on how we process your personal data by consulting our Privacy Policy through the Privacy Information > Show information section.

Specify your consent ID and the date when you contacted us regarding your consent.

This domain is owned by Google Inc. Although Google is primarily known as a search engine, the company provides a diverse range of products and services. Its main source of revenue however is advertising. Google tracks users extensively both through its own products and sites, and the numerous technologies embedded into many millions of websites around the world. It uses the data gathered from most of these services to profile the interests of web users and sell advertising space to organisations based on such interest profiles as well as aligning adverts to the content on the pages where its customer's adverts appear.
